SUMMARY

Senior Frontend Engineer with 5+ years of experience building web applications with TypeScript, JavaScript, Vue.js, and React. Experience spans document-generation workflows, dynamic forms, authentication, and multilingual interfaces. Mentored a five-person frontend team and contributed to launching more than six products.

TECHNICAL SKILLS

Languages & frameworks: TypeScript, JavaScript, HTML, CSS, Vue.js, Nuxt, React, Next.js

UI & integration: Tailwind CSS, SSR, accessibility, responsive design, GraphQL, Apollo Client

Testing & tooling: Vitest, Jest, Playwright, Cypress, Git, Vite, WXT, Crowdin

EXPERIENCE

Tec Tech | Senior Frontend Engineer

Nov 2024 - Present | Company based in Lisbon, Portugal

- Built TypeScript document-generation workflows connecting configurable forms to a visual canvas and document templates.
- Developed document-management interfaces with role-based access control, subscription-tier feature gating, and Google Drive file linking.
- Migrated custom authentication to Better Auth and integrated OAuth sign-in.
- Resolved Vercel out-of-memory build failures caused by heavy component imports and improved frontend asset delivery.
- Integrated Crowdin localization workflows for multilingual interfaces and built voice input for completing document forms.
- Wrote unit and component tests with Vitest and Jest, and end-to-end tests with Playwright and Cypress.

Sabi | Frontend Engineer

Jan 2024 - Nov 2024 | Addis Ababa, Ethiopia

- Built responsive, mobile-first interfaces for a talent acquisition platform serving clients and job seekers.
- Optimized frontend performance and collaborated with cross-functional teams to deliver product features.

Minab I.T. Solutions | Frontend Web Developer

Jul 2021 - Jan 2024 | Addis Ababa, Ethiopia

- Mentored a five-person frontend team, onboarded interns, and developed a guide for consistent web development practices.
- Built cross-browser interfaces across eight web applications and implemented server-side rendering to support SEO.
- Developed interactive user guidance with Vue.js, Tailwind CSS, and GSAP, and contributed to launching more than six products.
- Delivered MVPs within tight timelines, helping support five closed business deals.

EDUCATION

B.S. in Software Engineering | 2017 - 2021

Addis Ababa Science and Technology University | Addis Ababa, Ethiopia
